

STORM-BUSTERS™

Storm-Busters™ is Florida Building Code approved product # FL5594 and a Texas Department of Insurance approved product # SHU-129.

Storm-Busters™ is a translucent panels that allows 70% of the natural sunlight .

Storm-Busters™ is 75% lighter than a 5/8" sheet of plywood of comparable size.

Unlike plywood, Storm-Busters™ can be reused indefinitely.

Storm-Busters™ is the lowest cost, Florida Building Code approved Hurricane Shutter System on the market.

INSTALLATION INSTRUCTIONS FLUSH MOUNT/DIRECT MOUNT

To ensure proper INSTALLATION,
measure a 4" overlap on all window sides.
Proper measuring and cutting is extremely important.
Always wear proper eye and hand protection.

TO INSTALL

1. Measure each window opening. Allow 4" overlap on each side of window, e.g. for a 24" x 36" window opening, the Storm-Buster™ panel should measure 32" x 44".
2. Measure & cut the panel with a power saw and a laminate blade (fine tooth). For radius cutting, use a jig saw with a laminate blade. Mark the window or door location, as well as the panel size (e.g. "Living Room Window, 32" X 44") on the Location Label. Peel and stick it to the plastic panel.
3. Drill 1/2" holes in Storm-Busters™ panel for fasteners, start 6" from a corner. Using a 1 1/2" reveal, drill the holes every 14" (on center) O.C.
4. Using a 1/2" combo masonry drill bit, begin drilling the holes in building. Start 6" from a corner. Using a 1 1/2" reveal, drill the holes every 14" O.C., using a masonry 1/2" combo drill bit for solid concrete. Drill 1 1/2" into the wall.
5. Install flush mounted anchors using the anchor setting tool.
6. Install panel and install Stainless Steel bolts.
7. To install, use #3 phillips screw driver and fasten snug, but **DO NOT over tighten.**

TO REMOVE

1. Remove all stainless steel bolts and store in a container OR replace Stainless Steel bolt back in anchor after Storm-Busters™ panel is removed.
2. Remove and store boards.

STORAGE

Store each Storm-Buster™ panel in a cool, dry place. They can be stored under a bed, in a closet or garage either flat or on end.
